

## Sprint 1 Plan

Slug Grades

MMnMM

Sprint completion date: 2/2/2018

Revision number and revision date.

### Goal:

During this sprint we want to find a way to compile our code and host it. Also we want to set up a database so we can make different profiles. Lastly we want the ability to upload a HTML document to a user profile.

Task listing, organized by user story:

- I. As a user, I want to be able to access a website so that I can use the service.
  - A. Find a way to host website(2)
  - B. Find a way to compile code(2)
  - C. Make basic frame for website(1)

**Total for user story 1 = 5 hours**
- II. As a user, I want to be able to create an account so that I can have a personalized profile.
  - A. Figure out what we will use for a database(1)
  - B. Configure our database to necessary settings(2)
  - C. Create multiple users(1)
  - D. Create a login page(1)
  - E. Store email/username and password in database(2)
  - F. Test (1)

**Total for user story 2 = 8 hours**
- III. As a user, I want to be able to upload a HTML file so that I can upload my transcript.
  - A. Make a clickable link on homepage of user profile(1)
  - B. Research how to upload a file(3)
  - C. Implement uploading a file(3)
  - D. Save file to user's account(3)

**Total for user story 3 = 10 hours**

Initial Task Assignment:

Matthew Frank (I, B)

Mikhail Lychagin(II, B)

Miriam Del Cerro(I, C)

Nick Pappas(II, A)

Madeline Conner(I, A)
